Rebel Blue and Yellow Pansy

Viola 'Rebel Blue and Yellow'

Plant Height: 6 inches

Flower Height: 8 inches

Spread: 6 inches

Spacing: 5 inches

Sunlight: ☉ ●

Hardiness Zone: (annual)

Other Names: Winter Pansy, Violet

Group/Class: Rebel Series

Description:

A stunning pansy variety presenting attractive purple and yellow bi-color blooms with dramatic dark streaks that immediately command attention; creates visually captivating containers, or border edgings

Ornamental Features

Rebel Blue and Yellow Pansy has masses of beautiful purple flowers with yellow overtones, gold eyes and deep purple streaks at the ends of the stems from early spring to late summer, which are most effective when planted in groupings. Its serrated round leaves remain dark green in colour throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Rebel Blue and Yellow Pansy is an herbaceous annual with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Self-Seeding

Rebel Blue and Yellow Pansy is recommended for the following landscape applications;

Planting & Growing

Rebel Blue and Yellow Pansy will grow to be only 6 inches tall at maturity extending to 8 inches tall with the flowers, with a spread of 6 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 5 inches apart. Although it's not a true annual, this fast-growing plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. Consider covering it with a thick layer of mulch in winter to protect it in exposed locations or colder microclimates. This particular variety is an interspecific hybrid.

Rebel Blue and Yellow Pansy is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
