## Blue Danube Juniper

*Juniperus sabina 'Blue Danube'*

Height: 3 feet

Spread: 10 feet

Sunlight: ☉

Hardiness Zone: 3b

### Description:

A choice color accent groundcover evergreen for home landscape use; very attractive and soft bluish-green foliage, upright arching branches and a compact habit of growth; excellent in massing and groupings or as a groundcover

### Ornamental Features

Blue Danube Juniper is a dwarf conifer which is primarily valued in the garden for its broadly spreading habit of growth. It has attractive blue evergreen foliage. The scale-like sprays of foliage are highly ornamental and remain blue throughout the winter. It produces blue berries from late spring to late winter.

### Landscape Attributes

Blue Danube Juniper is a multi-stemmed evergreen shrub with a ground-hugging habit of growth. It lends an extremely fine and delicate texture to the landscape composition which should be used to full effect.

This is a relatively low maintenance shrub, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Blue Danube Juniper is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover

SECOND NATURE

## **Planting & Growing**

Blue Danube Juniper will grow to be about 3 feet tall at maturity, with a spread of 10 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a slow rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It is very adaptable to both dry and moist growing conditions, but will not tolerate any standing water. It is considered to be drought-tolerant, and thus makes an ideal choice for a low-water garden or xeriscape application. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.
